MEMORANDUM FOR THE RECORD:

25X1 This morning I had breakfast with Mr. Allen Dulles at his home, [REDACTED]. We discussed conditions in general and I obtained his reactions to two specific points of interest, as follows:

1. He understands our reluctance to have too many individuals involved in the inspection of OSO. He will talk it over with Jackson and Correa and see if it can't be held to an inspection by him (Dulles) with the assistance of SO personnel known to him. It is obvious that he would prefer the assistance of [REDACTED]

Indicated considerable approval of OSO's operations.

25X1 At the outset of our conversation, Mr. Dulles told me that he had talked with [REDACTED] and [REDACTED] and had explained, in a general way, his connection with us. He said they both indicated complete satisfaction with our connections with them, with CIA as an Agency, [REDACTED]
